

Ice Qube, Inc. REACH Declaration

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) applies to substances manufactured or imported into the EU in quantities of one metric ton per year or more, and now includes 241 substances. REACH applies to all individual chemical substances on their own, in preparations, or in articles if the substance is intended to be released during normal and foreseeable conditions of use.

REACH regulation defines an article as an object which during production is given a special shape which determines its function to a greater degree than its chemical composition. Accordingly, Ice Qube Inc.'s products are defined as articles.

Ice Qube, Inc. products are manufactured by Ice Qube, Inc. and are not designed or anticipated to intentionally release regulated substances under normal and reasonably foreseeable conditions. Therefore, our products are exempt from the registration requirements of the directive as defined in Article 59(10) and Annex XVII with amendments dated most recently to include over 1000 substances.

Additionally, as an exporter, **Ice Qube Inc has neither the obligation nor the right to Directly register substances.**

If we may be of further assistance to you, do not hesitate to contact me via email at: scott@iceqube.com or at the address/phone/fax listed in the sidebar.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Palmer".
